Nashville, TN 37205-2896

Dear Bill:

After weeks of waiting, here's the basic artwork for the VGEC seal. Enclosed are:

- 1) the original artwork set up for separations; and
- 2) a set of negatives and two sets of prints from the separations.

This should be enough for a printer to work with.

The color scheme I had selected was based on colors for UNCOATED stock. It was as follows:

<u>Color</u>	<u>PMS Number</u>
Red	032
Blue	286
Yellow	115
(Border)	
Lettering ..	Black

You may wish to examine color samples yourself; please feel free to change if you find colors you like better.

The printer has billed VGEC c/o Mr. Mark Graham, Treasurer, in Atlanta, GA. The total was \$124.19, including Kansas sales tax. I have telephoned Mark to alert him to the fact that he'll be receiving it.

As discussed during the course of our recent telephone conversation, I feel it would be in the best interest of the VGEC if I resign as chairman of the Publications Committee in order to allow you to select an individual who can devote more time to actual publication. I would be happy to continue to provide artwork as the need arises.

I'm sorry for the delay in obtaining the enclosed materials, and am extremely disappointed in the printer's lack of ability to produce color keys, etc. Along with the rest of our members, I look forward to being able to obtain badges, pins, etc. displaying the seal. Thank you for your patience.

Faithfully in Christ,
Scott M. Weir
